Fast and efficient colour laser printers

The SP C830DN/SP C831DN are fast, user-friendly, colour A3 laser printers that are ideal in a busy office environment. They are easy to operate via a large 4.3-inch colour touch panel. Heavyweight paper up to 300 g/m² is handled in a particularly smooth and reliable way. Powered by Ricoh's next-generation controller, they give you outstanding security, a low total electricity consumption, and comprehensive device management capabilities.

- 45/55 A4 pages per minute.
- 4.3-inch colour touch panel.
- IC card authentication for increased security.
- Attractively designed.
- ECO Night Sensor reduces electricity consumption.

New fusing system

Enjoy ecological benefits and print quality improvements thanks to Ricoh's Quick Start Up Direct Heating (QSU-DH) fusing system. The device has a thin fusing belt around the heater, which reduces electricity consumption and shortens recovery time. Furthermore, fusing is done on a plane surface, reducing damage or wrinkles to papers. This leads to particularly high-quality envelope printing.

ECO Night Sensor

The innovative ECO Night Sensor further reduces the already low electricity consumption of these devices. The SP C830DN/SP C831DN can be set so that the main power shuts down when the light levels in the room dip below a certain level. The sensor detects both the decline of natural and artificial light. You can set the sensor to activate between 5 and 120 minutes after darkness falls.

Confidentiality ensured

Prevent potential information leaks should a printout be forgotten to be picked up, or picked up by mistake, by restricting the use of the SP C830DN/SP C831DN to holders of a card with an Integrated Chip (IC). IC card authentication also reduces paper output by enabling you to choose the jobs you want to print.

High productivity

The SP C830DN has a warm-up time of less than 29 seconds and prints 45 A4 pages per minute. Its first print is available after 3.7 seconds (B/W) or 5.7 seconds (colour). The SP C831DN's warm-up time is less than 25 seconds and it prints 55 A4 pages per minute. Its first print is produced after 3.4 seconds (B/W) or 5.1 seconds (colour).

Flexible printing

A USB/SD slot enables casual users to print easily from flash drives and memory cards. Further enhancements include enabling a preview screen before printing, a greater number of available print settings, and multiple selection of PDF or TIFF files.

Essential capabilities for smooth business operations

- 1 Easy access & intuitive operation via 4.3-inch colour touch panel.
- 2 USB/SD slot to enable easy printing from flash drives and memory cards.
- 3 4-bin mailbox for easy separation and collection of prints.
- 4 Standard 2 x 550-sheet paper trays to stay productive at all times.
- 5 Standard 100-sheet bypass tray to take advantage of a wide range of paper sizes and types.
- 6 Optional 2 x 550-sheet paper trays or 2 x 1,000-sheet large capacity tray for a choice of multiple paper sources.
- 7 1,200-sheet side large capacity tray to increase your productivity.
- 8 2,000-sheet booklet finisher & several punch kits for an entire range of finishing possibilities.
